## Profile Summary

---

Versatile and detail-oriented MCA student with hands-on experience in Web development. Proficient in HTML, CSS, JavaScript, Node.js, Express.js and Asp.net. Familiar with tools such as Docker, Git, and SQL. Completed an internship at Diwizon Dynamics and delivered freelance WordPress projects. Focused on building scalable, user-centric applications, and currently seeking to leverage technical expertise in a dynamic development environment, with a focus on growing into a Full-Stack + DevOps role.

## Experience

---

### Diwizon Dynamics Pvt.ltd, Freelance(Web Tester)

- Hired post-internship for freelance work on the Intralog project.
- Conducted functional and UI testing across various modules
- Identified bugs, performance issues, and UI inconsistencies.
- Delivered detailed feedback and collaborated with the dev team to enhance user experience and ensure smooth deployment.

Vadodara, Gujarat

nov 2024 – dec 2024

### Diwizon Dynamics Pvt.ltd, Web Developer Intern

- Contributed to multiple client and in-house projects using core web technologies such as HTML, CSS, and JavaScript.
- Worked on CMS platforms like WordPress and Shopify, handling end-to-end website development, customization, and maintenance.
- Focused on creating responsive, user-friendly interfaces following UI/UX best practices. Applied SEO principles and performance optimization strategies to improve website speed and visibility.
- **Key Contribution:** Improved performance of Idarah (Dubai corporate site) by optimizing images and minimizing unused CSS/JS.

Vadodara, Gujarat

may 2024 – sep 2024

04/2020–03/2021

**SSC** **Basil School,Vadodara,**

04/2018–03/2019

## Projects

---

### (Freelance - ongoing) WordPress E-commerce Project – Khanaraa | WordPress, Elementor

- Currently working on a WordPress-based E-Commerce clothing website, focusing on customizing themes, integrating payment gateways, and improving the user experience to create a smooth and visually appealing online shopping platform.
- Tools used: Wordpress | plugins(WP Rocket, WP Optimizer)

<https://khanaraa.in/>

july 2025

### (Freelance) WordPress Project – WhatOfficial.com | WordPress, Elementor

- Independently worked to design and build the landing page for WhatOfficial.com, a software development agency. Used WordPress with Elementor to craft a clean, visually appealing, and fully responsive layout aligned with the client's branding and messaging. Focused on enhancing user experience through intuitive design and mobile optimization. This project strengthened my skills in client communication, self-management, and delivering high-quality web solutions within deadlines.
- Tools used: Wordpress

june 2025

### (College Inhouse Project) Facebook Clone

- Developed a dynamic social media web application inspired by Facebook using the MERN stack (MongoDB, Express.js, React, Node.js). Implemented core features such as user registration, feeds, reels, and profile management with a fully responsive and user-friendly interface. Handled both front-end and back-end development to ensure seamless functionality and real-time interaction.
- Tools used: React.js, Node.js, Express.js, Mongo DB

may 2025 – june 2025

### (Internship) Website Performance Optimization – Idarah.com | WordPress

- Worked to improve the overall performance of *Idarah.com*, focusing on front-end optimization. Compressed large images and videos without affecting visual quality and optimized CSS and JavaScript files to reduce load time. These efforts led to an increase in page speed 30%, achieving a Google PageSpeed score of 90 + on both desktop and mobile platforms. The project significantly enhanced the website's user experience and search engine performance, while also strengthening my skills in web performance tuning and technical SEO fundamentals.
- Tools Used: Wordpress | plugins(WP Rocket, WP Optimizer)

Aug 2024

### (Internship) WeddingEase – Wedding Planning Website

- Created a mockup design to present the layout, color scheme, and functionality of the site to the client, ensuring the final version aligned with their vision. Based on the approved mockup, developed a fully responsive wedding planning website with clean UI and intuitive navigation. Worked closely with the team to implement visual elements, and deliver the final product on schedule.
- Tools Used: Html, Css, Javascript
